Where Skills Become Credentials

SOFIA'S LEARNING JOURNEY

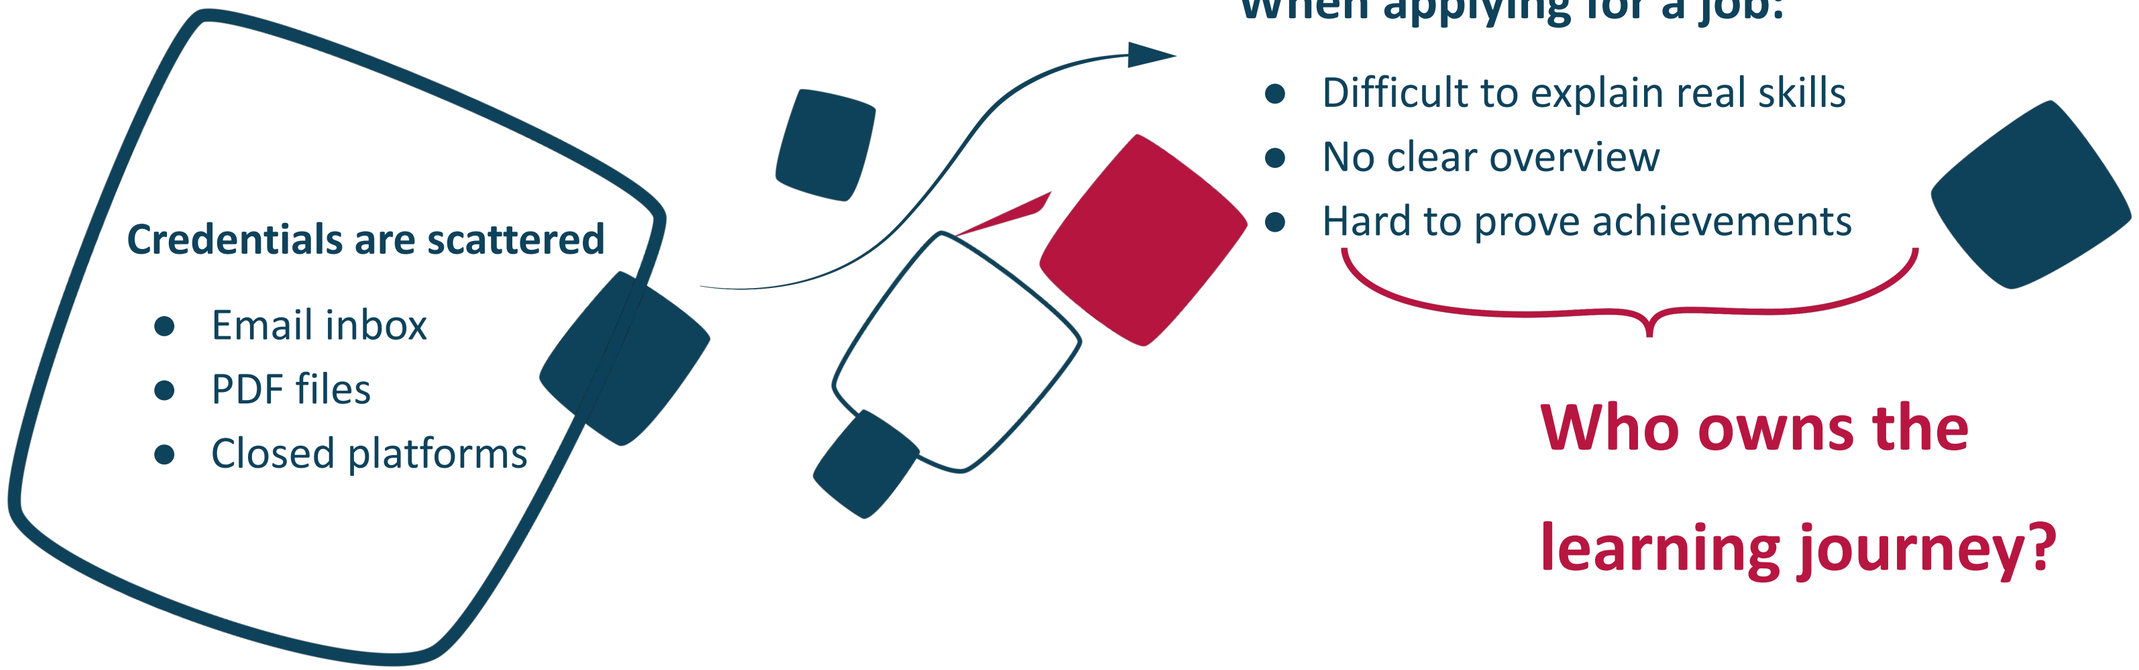
Sofia, 24 years old

- Marketing student
- Online courses in Data Analytics
- Sustainability workshop
- Non-profit volunteer

3 years of learning

- University credits
- Micro-credentials
- Digital badges
- Private certificates

THE PROBLEM:
FRAGMENTED ACHIEVEMENTS



Credentials are scattered

- Email inbox
- PDF files
- Closed platforms

When applying for a job:

- Difficult to explain real skills
- No clear overview
- Hard to prove achievements

Who owns the learning journey?

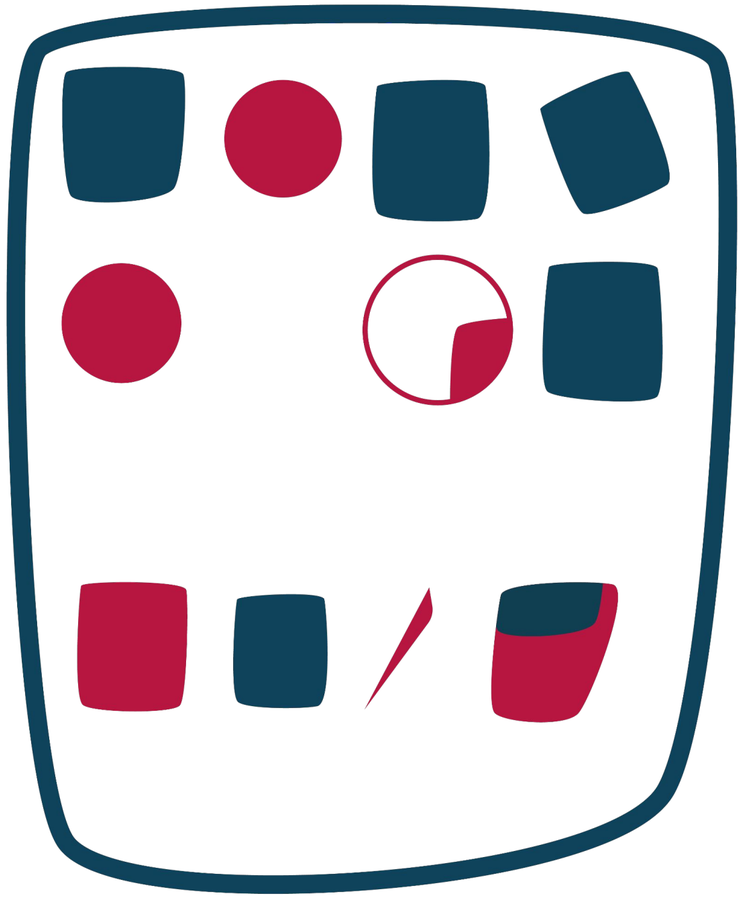
THE SHIFT: DIGITAL SKILLS PROFILE

With a Digital Skills Profile

- Select relevant badges
- Add personal descriptions
- Show skills, not just certificates

Different versions

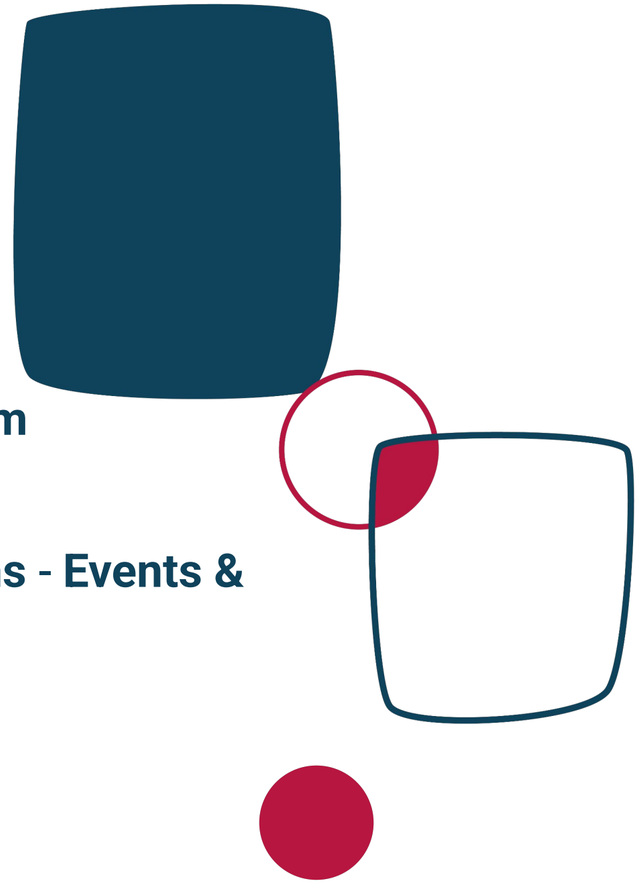
- Profile for employers
- Profile for academic applications



From documents to meaningful storytelling

THE DIGITAL SKILLS PROFILE: LEARNER-OWNED SKILL IDENTITY

- A **dynamic**, **customizable** profile integrating earned Open Badges
- **Multiple templates** and **graphic layouts** available
- Learners can decide **which badges to display** and **how to describe them**
- Profiles tailored for: **Employment & networking** - **Academic applications** - **Events & conferences**
- Easy sharing via **social media**, **email**, and **messaging**



CONTROL & TRUST: CREDEMIA WALLET

Personal Backpack

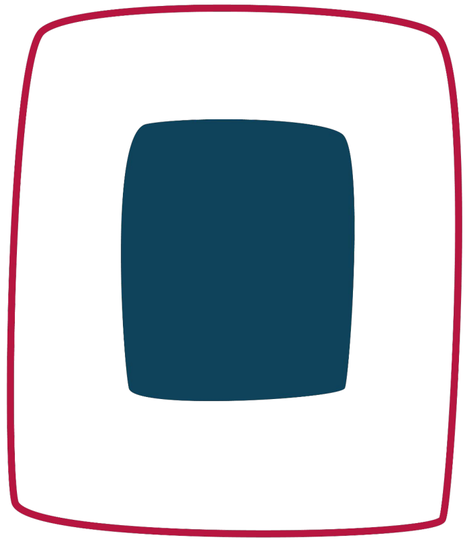
- All credentials in one place
- From multiple certified providers
- Learner-controlled

Blockchain verification

- Instant verification
- No emails
- No manual validation
- No doubts

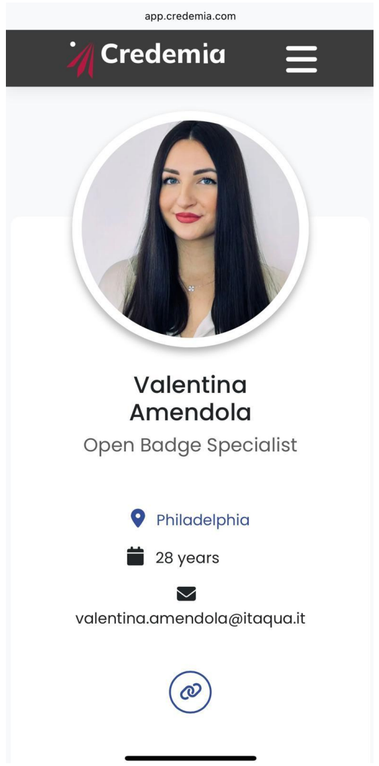
Portable. Verifiable. Owned by the learner.

YOUR CREDEMIA PERSONAL WALLET

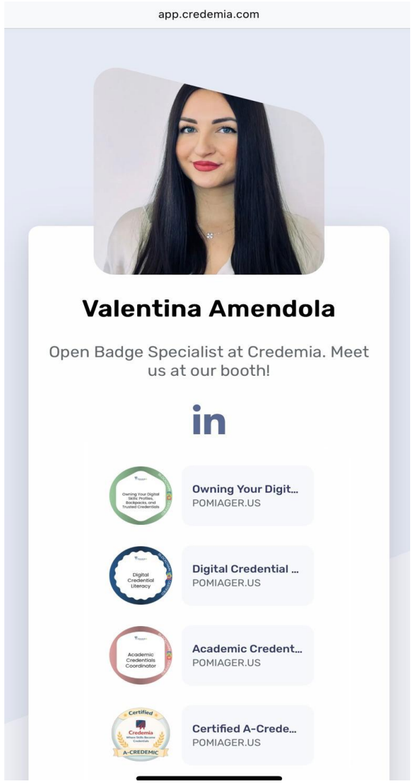


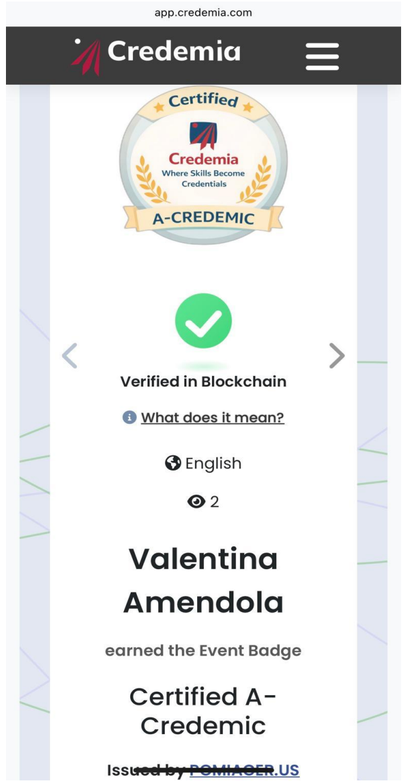
- A **secure, interoperable wallet** for all digital credentials
- Allows **import of badges** from other 1EdTech certified platforms
- **Organizes achievements chronologically**, representing the **learner's journey**
- Promotes **lifelong learning** and crossplatform **interoperability**

Skills Showcase and Wallet: A Practical View



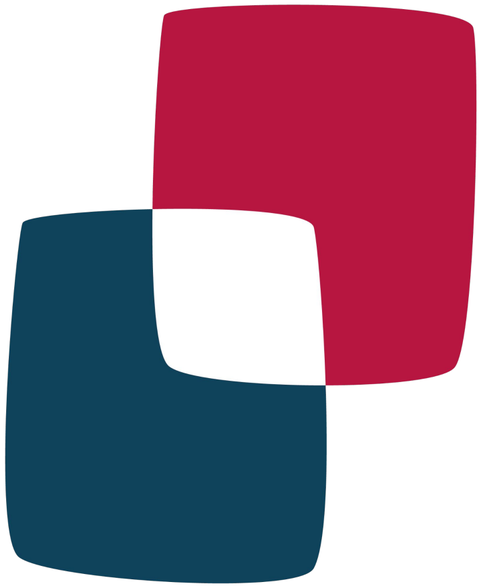
My wallet



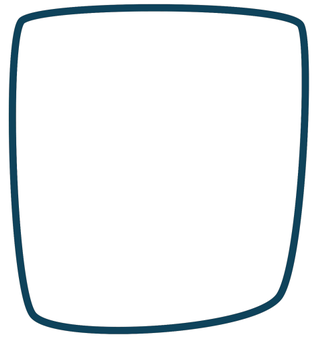


Skills Showcase

SECURITY AND VERIFICATION



- Every badge issued through Credemia is **tamper-proof**
- Protected by Blockchain technology ensuring **authenticity** and **immutability**
- **Tokenized representation** badges, offering: **User-controlled ownership**
- Reinforces **trust** and **transparency** in the digital credential ecosystem



THE BIGGER PICTURE - LEARNERS CAN:

- **Take control and stand out:** Choose how, where, and when to showcase verified skills through fully customizable Digital Skills Profiles.
- **Keep everything connected:** Collect, store, and manage all Open Badges from any 1EdTech-certified platform in one interoperable Personal wallet
- **Trust every achievement:** Blockchain verification ensures authenticity, transparency, and lifelong accessibility to every credential
- **Turn learning into opportunity:** Bridge education, employability, and recognition by transforming verified skills into real career value.

NEXT STEPS IN THE OPEN CREDENTIAL ECOSYSTEM

- Advancing learner-centered digital credentials
- Strengthening interoperability through open standards
- Enabling portable and verifiable Skills Profiles and Showcases
- Increasing skills visibility and improving talent matching
